Dear Parents/Carers,

At Junction Farm Primary School we do our best to encourage all our children to develop all their talents. For example, if they are gifted or talented in English or Maths we support, challenge and stretch them to ensure they reach their potential. If they are a skilled musician we try to give them opportunities to perform and try different instruments. If they excel at sport we enter them for tournaments and competitions etc. We look for opportunities outside school where children can gain other experiences and perhaps discover hidden talents!

Some children take part in activities outside school and become quite skilled and talented in them. We would like to know about any activities your child participates in where they have reached quite a skilled level. This would enable us to look for opportunities to support and encourage in school.

If you feel your child qualifies for inclusion on the Gifted and Talented Register please complete the form below and return it to school.

Gifted and Talented

Child's name -----

Class -----

My child shows a talent for -----

Notes:

Please include any grades, levels, certificates, events etc. that will help describe this skill.
